Let your child experience preschool in the Pearl!

We encourage children to learn first-hand about the world we live in. Our preschoolers are fortunate to be in the heart of the city, where so many wonderful things are within walking distance. We set the stage for children's success in school and in life by creating a positive learning environment both inside and outside the classroom.

At WeVillage Preschool, our students are able to develop the full potential of their imagination and ingenuity and build the foundation for academic learning. Our class sizes are small and our teachers carefully design each day's curriculum to be developmentally appropriate and to nurture each child's mental, physical and emotional growth.

From our location in the Pearl, preschool students can visit:

- Jamison Fountain
- Park Blocks
- Museum of Contemporary Craft
- Art Galleries
- Restaurants
- Portland Public Library

We use ongoing observation and assessment to track each child's progress. Our children learn using blocks, dramatic play, art, reading, music and movement, science discovery and outdoor play.

Learning at its best is collaborative, creative, and nurturing.

We create **enthusiastic and creative learners** by making the most of our urban surroundings. We go on field trips, visit the park, take part in the city's wonderful and diverse happenings, and participate in yoga and music classes.

- **Small, boutique setting**
- **Snacks are provided**
(in addition to your healthy sack lunch)
- **Classes have a maximum of 15 children**
- **Each class has one teacher & one assistant**
- **We focus on life skills like shoe tying, tooth care, etc.**
- **Our teachers have 10+ years experience**
